

The Kirtlington Village News – Annual Report to the Parish Council, May 2024

Since our last report we've been very pleased with feedback to the publication. In particular villagers seem to like the variety of articles, the colourful photos and the diversity of people submitting pieces.

We really hope that the magazine acts as a glue for the village, helping to build our community and celebrate our shared events and memories whilst recognising contributions to village life and the achievements and lives of people, young and old, from the village.

There is a good circulation of around 270 but we would love even more people to subscribe to the News. Perhaps just as The News promotes the various societies, there could be reciprocal promotion and encouragement of people to subscribe to the News!

Steph Hilborne, Editor
